Of course it is all a "tame schwindel," as the Jew said when he went up in a baloon and couldn't find the silver lining of the cloud. It happens every now and then that a person sends off for such a gold watch, gets it, and then loses faith in watches and humanity for ever and ever and ever. We think it would pay you to call on us and see if we have what you want, and if we can't suit you, at all, out of a large stock of fine watches, why—it is time enough then to send out of town for enough then to send out of town for

PRATT'S ASTRAL OIL is universally conceded to be the best burning and illuminating oil ever put on the market. This result is due to unremit ing care in its distillation, the employment of the highest mechanical skill, the closest attention to every detail and the use of the most approved methods in its manufacture.

PRATT'S ASTRAL OIL from the use of which no accidents have occured, has borne an unexcelled reputation as a high grade of illuminating oil for twenty-five years, during which time many millions of gallons have been sold.

PRATT'S ASTRAL OIL is pure spring water in color, of high gravity, odorless and of unequaled burning quality. Will not smoke your chimneys and give a beautiful, bright, steady light as long as a drop remains in the lamp.

PRATT'S ASTRAL OIL costs but little more than the inferior grades of illuminating oils and gives far more satisfaction in its use than any oil on the market. It is especially a family oil.
